

Introduction

Canadian Nurs-ette Distributors Ltd. Is a long-time pioneer and leader in providing advanced milk replacer solutions. Nurs-ette has been manufacturers of quality products for a broad range of animal species since 1967. Now with new generation options designed to optimize animal nutrition, performance, care, and welfare. Built to meet the needs of today's animals, production systems and market opportunities.

Our young animal nutrition solutions include premium trusted options for dairy calves, beef calves, piglets, lambs, and kid-goats. All our products are developed in inonophore-free, antibiotic-free facilities.

Calves

General Recommendations

- During extreme conditions (cold or wind), offer an extra feeding of milk replacer per day
- Mix only enough solution for one feeding
- Use clean feeding utensils
- Keep fresh, clean water before calves at all times
- Starting at approximately 1 week of age, provide good quality calf starter on a free choice basis
- House calves in warm, dry, and draft free quarters
- Follow the program of your feed consultant after calves are weaned

Note: For more detailed feeding directions visit www.nursette.com

Proudly Made in Canada

Available in 225 gram

Specially formulated for newborn or stressed calves.

Guaranteed Analysis

This feed contains added selenium at 0.3 mg/kg

Crude Protein (Min.)	//26,0%/////////
Crude Protein from Milk Sources (Min.)	//26,0%////////
Crude Fat (Min.)	/16,5%////////
Crude Fiber (Max.)	//0.15%////////
Phosphorus (Actual)	//0.75%////////
